CLOSING OF UNIVERSITY CITY SCHOOLS PRECAUTIONARY MOVE

L. T. Ward, president of the University City Board of Education, said today that the closing of the five public schools there was not due to any epidemic of disease, but was a precautionary measure, taken on advice of the Health Commissioner. He said there were several cases of diphtheria occurring and for this reason it was deemed advisable to close the schools to prevent a spread of the disease.

The Delmar School was closed last Tuesday, and at a meeting of the Board of Education Friday night it was decided to close the other schools, including the high school and the Barmer, Ferguson and Home grammar schools. Ward said he expects the schools will be reopened in four or five days.
