THREE WORCESTER SOLDIERS WOUNDED

Three Worcester soldiers are reported today as having fallen for freedom.

Relatives of Priv. Dennis J. Lyons, whose home is at 177 Washington Street, received a telegram from the war department this morning that he had been severely wounded in action on July 27. He was a member of E Co., 104th Inf.

The official war department casualty list gives the name of Private Charles D. Sprig, 106 Southbridge Street. He was wounded in action. He formerly resided at the Southbridge Street address, but his family moved to Marlboro.

ASK RETURN OF WORCESTER NURSES

The scarcity of nurses in Worcester has suggested the advisability of recalling temporarily the Worcester City Hospital unit of nurses now at Camp Devens. Dr. C. A. Dray, superintendent of the City Hospital, said this morning that this is under consideration, but no action has been taken other than wire Mrs. Dora E. Thompson, head of the Red Cross bureau in Washington asking if permission can be secured.

Mrs. Thompson wired the mayor's office this morning asking the names of the nurses desired to have returned. The telegram was turned over to Miss Rosabelle Jacobs, head of the Worcester Society for District Nursing. It is understood that the epidemic at Devens is now under control and that the nurses there are not rushed.

Health Board May
Close Saloons
Of City

If Worcester saloons are to be closed by the board of health this action will probably take place at a meeting of the board this afternoon. It is reported that such action will probably be taken in view of the fact that reports this morning show that the influenza is gaining in strength here.

Deaths in Day 26
The board of health reported this morning that there were 26 deaths from the disease on October 1, six (Continued on Page Two)

CONTINUE TO SEND 250,000 MEN MONTHLY

WASHINGTON, Oct. 5.—Despite the epidemic of Spanish influenza embarking of American troops is being continued at the rate of more than 250,000 per month. Gen. March announced today. The total embarked to date now has passed the 1,850,000 mark. The September shipments exceeded 250,000, although cases of influenza in camps at home exceeded 100,000.

The policy of the war department in sending overseas only men who have not had the disease and who have not been exposed to it has necessitated material readjustments of the shipping schedule but has not interfered with the total number embarked.

(Passed by the British Censor)

LONDON, Oct. 5.—The world is now witnessing the beginning of the final break-up of the Central Alliance as a military power.

Will Continue
How rapidly the Austro-German collapse will come no man can tell, but the period of ascendancy now reached by the allies will continue to the end.

This summarizes the British official view of the greatest week of the war.

Greater Events in
Immediate Future
For the first time since 1914, Germany finds her front and rear caving in at the same time.

EVENTS EVEN MORE MOMENTOUS THAN THOSE OF THE LAST FEW DAYS LIE JUST AHEAD.
