HIS ABDICATION DENIED

Kaiser Not To Quit, Says Official Berlin News Agency.

Berne, Switzerland, Oct. 14.—The Wolff News Agency of Berlin today issued an official denial of the report which had become current in Germany that Emperor William intended to abdicate.

But Prince Max May Go.

London, Oct. 14.—The resignation of Prince Maximilian, of Baden, as German Imperial Chancellor is probable, according to reports from Holland today. They quote the Berlin National Zeitung as saying the Chancellor's retirement is regarded in certain circles as inevitable.

And Ludendorff Offered To.

Geneva, Sunday, Oct. 13.—General Ludendorff flew into a rage and offered his resignation last week, according to a report from Munich. The General's ire was aroused when he found that the first German note had resulted in bringing out the fact that the Entente demanded an evacuation of occupied territory before the question of an armistice could even be considered. The report does not state whether his resignation was accepted.

Portugal in State Of Siege.

Lisbon, Portugal, Oct. 14.—The Portuguese Government has declared a state of siege for all Portuguese territory. The President, as Commander-in-Chief of the military and naval units, has taken direct command of the forces. Tranquillity reigns in the country.

At Penafiel, a town of 19 miles north-east of Oporto, there has been a small show of insubordination. A military force promptly reduced the rioters to obedience.

HALLAM BANK ROBBED

Bandit Drives Officials Into Vault And Escapes With \$5,000.

York, Pa., Oct. 14.—The Farmers' State Bank at Hallam was robbed of \$5,000 this afternoon by a burglar who forced the cashier, W. C. Blessing, and his two assistants into the vault and escaped in an automobile.

After he had possession of the money the burglar informed the bank employees that he would not close the vault door until they provided they remained in the bank 20 minutes. They they promised to do.

Sisters Die Within Two Hours.
York, Pa., Oct. 14.—Two sisters, Beanie and Alice Duell, daughters of Mr. and Mrs. Lewis Duell, of this city, yesterday died within a half hour of each other. Miss Alice Duell died at Woodbury, N. J., and Beanie in Washington. Both were victims of influenza. Besides their parents, they are survived by four brothers and one sister.

A Wartime Recipe for Gray Hair

Gray, streaked or faded hair can be immediately made black, brown or light brown, whichever shade you desire, by the use of the following remedy that you can make at home:

Merely get a small box of Orlex powder at any drug store. It costs very little and no extra to buy. Dissolve it in water and comb it through the hair. Full directions for mixing and use come in each box.

You need not hesitate to use Orlex, as a \$100.00 gold bond comes in each box guaranteeing the user that Orlex powder does not contain silver, lead, zinc, sulphur, mercury, aniline, formaldehyde or their derivatives. It does not rub off, is not sticky, gummy and leaves the hair soft. It will make a gray-haired person look twenty years younger. Advertisement.

FIRE TOLL NEAR 1,000

500 Victims Alone In Moose Lake And Kettle River Section.

THOUSANDS OTHERS INJURED

Whole Families Found Suffocated And Charred Beyond Recognition—50 Square Miles Swept.

Moose Lake, Minn., Oct. 14.—Men and women of the Moose Lake district of Minnesota, driven by fire from their homes, penniless, many of them wearing clothing furnished by charitable relief workers, tonight took up the search for their dead.

Barred by the military authorities from leaving the city, they wandered between long lines of bodies in the improvised morgues here, searching for loved ones who have not been heard from since the forest fires laid waste this section of Minnesota and a part of Northern Wisconsin four days ago. Motor trucks arriving at frequent intervals brought in more and more bodies, and he and his wife continued throughout the night.

During the last 24 hours the bodies of 500 victims have been found in the burned No Man's Land, which before the fire formed the smiling shores of Moose Lake and Kettle river. The majority of the bodies, some of which were taken to Duluth, were so badly charred that identification will be difficult. The searchers have been on duty for ten hours, but there has been as yet no lackening of the pace or shortening of intervals at which the bodies are brought in. Adjutant-General Rhinow might estimate that the number of dead in the Moose Lake and Kettle river regions alone might reach 500. These, with the other dead from adjoining regions, will, it is believed, swell the list of dead to near the 1,000 mark.

Thousands injured. Improvised hospitals here, and the emergent institutions at Duluth are caring for thousands of more or less injured refugees, many of whom are in a critical condition. The forces of rescue workers will be obliged tomorrow, General Rhinow said, to this time only the main roads are being explored. It has been impossible to search the great areas of farm and laid waste by the fire, and that search is expected to result in the finding

been stripped clean of timber, crops, livestock and human habitation.

No further danger is anticipated, although the conflagration continues in isolated areas. Fire south and southwest of Cass Lake, driven by a high wind, were said to be gaining tonight with the city directly in the path of the flames but it was believed efforts of the fire fighters would prevent the fire from attaining serious proportions.

NEW SMASH IN FLANDERS

(Continued from Page 1.)

1914, for the cornerstone of it was the Laon plateau.

It was on the Laon plateau that the German line was pivoted. It was to turn it that the offensives of 1915 and 1916 were carried out. It was against it that the campaign of 1917 was prematurely broken. It was from the plateau that the sixth great drive of the Germans towards Paris was started.

MANGIN ENTERS LAON.

[By the Associated Press.]

With the French Army in the Laon Area, Oct. 14.—In a literal transport of joy the 6,000 inhabitants remaining in Laon rushed to the gates of the city yesterday afternoon to greet General Mangin, who made his entry into the city at 3:30 o'clock. Men, women and children, with the tears running down their cheeks and waving their tri-color flags, cried "Long live General Mangin! Long live the army! Long live our liberators!"

The people crowded around the General almost carrying him in triumph to the City Hall, where he was received by the Deputy Mayor. The Mayor himself and 600 young men had been carried into captivity by the Germans before the French troops arrived.

General Mangin's forces had reached the Laon-La Fere railway at 10:45 A. M. and a quarter of an hour later the French tri-color was hoisted from the tower of the Laon Cathedral. About the same hour the last Germans were chased from the forest of St. Gobain, which for four years had been one of the strongest bastions of the enemy's line.

Pursuing their advance with heightened ardor in the joy of having delivered Laon, General Mangin's troops went on several miles north of the city, liberating a number of villages and arriving before the enemy's secondary position.

WITHDRAWN, SAYS BERLIN.
Berlin, Oct. 14.—North of Laon and

MOBILIZED AGAINST FLU

Public Health Service Organizes Campaign.

TAKES STEPS IN BALTIMORE

Establishes Headquarters In Several Cities For Statewide Efforts To Control Disease.

Washington, Oct. 14.—The Public Health Service announced tonight that it is now mobilized for a national campaign against the epidemic of Spanish influenza which has swept the country. Additional headquarters for statewide efforts to control the disease will be established at Baltimore, Columbus, Ohio, Richmond, Va., and Columbia, S. C.

While the epidemic continues unabated in most sections of the country, the number of new cases at army camps showed a decrease both Sunday and today, the total for the 48-hour period ending at noon being 15,102. New cases of pneumonia also decreased, as did the number of deaths. Pneumonia cases for the two days were 4,760 and the deaths 1,642.

Since the beginning of the epidemic in army camps the total cases of influenza reported is 250,020; pneumonia, 85,486, and deaths, 10,741.

In announcing today that it has mobilized for a national campaign among civilians, the Public Health Service said Surgeon-General Blue had telegraphed all State health authorities, suggesting that they organize in an effective manner as possible locally available resources, especially nursing personnel. Dr. Blue also suggested that all possible use be made of women who have not had regu-

lar training in order to diminish to some extent the demands made upon the doctors and nurses of the country, who are now badly overworked.

Miss Sadie Gompers, aged 23, daughter of Samuel Gompers, president of the American Federation of Labor, died today at her home here of Spanish influenza. Mr. Gompers is in Europe and is not expected to return until next month.

Solign Menos, minister from Haiti, died here today of influenza.

Increase In New York.

New York, Oct. 14.—With the number of new influenza cases on the increase in this city, Health Commissioner Cope-land announced tonight that he had called for tomorrow a meeting of 100 social service organizations to prepare plans for carrying relief work into the homes to prevent further overcrowding of hospitals.

The city, he said, would be divided into districts and a representative placed in charge of all the charitable agencies in each district. The commissioner said an effort would be made to find plants where cooking could be done to supply families stricken with influenza and unable to care for themselves.

In addition, an educational campaign will be conducted and "emergency vigilance" committees appointed to report all infractions of the sanitary laws and to see that all cases are reported.

Cases reported to the Health Department today showed an increase, although only slight, over the number reported yesterday, and the cases of pneumonia were slightly less.

New influenza cases totaled 4,217, as against 4,091 yesterday; pneumonia cases, 400, as against 458 yesterday. Deaths from influenza for the 24 hours were 222, against 168 for the day previous, and from pneumonia 233, against 169.
