Among other congratulatory letters received by the association is the fol-lowing from Mrs. Cora Wilson Stewart, chairman of the National illiteracy committee. It deserves the attention of the public Miss B. M. N

tion of the Dublic:

Miss E. M. Miles, Secretary,
Charlesten County Teachers' Association, Charleston, S. C.;

My dear Miss Miles, May I not send

My dear Miss Miles: May I not send through you my hearty congratulations to the Charlester County Teach, ers' Association, and, also, to the citisens of our county upon the intelligent and aggressive campaign which is being wored there to stamp out illiteracy? The National Hilteracy Committee and many of the States are mittee and many of the States are watching this splendid effort with intense interest and wishing your peo-ple the highest measure of success in pie the nignest measure of encours in attaining the worthy object to which they have set hemselves. None need doubt that adult illiter-

None ness doubt that adult liliterates can learn. So many thousands have done so in the moonlight schools and in the training comps that it is no longer a subject for doubt on debate. What has been done in other counties can be hetter done, no doubt, in Charleston. counties can be helter done, no doubt. In Charleston County where such rare anthusiasm and inflexible etermination characterizes your efforts.

The movement to stamp out illustracy from county. State and netion had its orief in the South, and was contained and information by the South.

had its origin in the South, and was fostered and monecod by the South, or States until the nation and the whole world came to recognize it as a fundamental work; The war has revesied more clearly the need of edithas given to the movement a new and nowerful impetus. The scourge of Spanish influence, which has recently swept over our country. found easy victims in illiterate communities. for ignorance invites discase and of-fers but feeble resistance to death. In the reconstruction, labor and com-merce will feel he blighting power of illiteracy anew. In illiterate sec-tions commercial and manufacturing tions, commercial and manufacturing interests will find both trade and prointerests will find both trade and production ourtailed, and every employer will realize that illiterate labor is the most expensive as well as the most inefficient labor. We mist clear this obstacle from the pathway of recent obstacle from the pathway of recenturations work. To redeem the nation's liliterates is indeed the very foundation and first measure of the reconstruction program. Anyons who lends a hand is as much a patriot as one who lent, a hand in time of war. The boys have made the world safe for democracy. Let us new keep it safe. Only by the eradication of illieracy and enlightenment of swary oft. eracy and enlightenment of every oft-isen can we safequere what we have Yours cordially.

Chairman, National Hiteracy
