INFLUENZA MARS
SUFFRAGE PLANS
Mass Meetings Have Been
Cancelled: Fight Continues
on Other Lines.

"Everything conspires against woman suffrage," one local suffragist said Wednesday. "Now it is the influenza which is trying to prevent a spread of the suffrage doctrine, but obedient to the demand of health authorities the suffragists will refrain from public gatherings."

Miss Florence Huberwald was scheduled to open the suffrage speaking campaign in New Orleans with a mass meeting in Lafayette Square Saturday night. Dr. Oscar Dowling, president of the State Board of Health, said the people may go into the parks, because plenty of refreshment may be found there, but strict analysis, Lafayette Square might not be described as a "fresh air park."

The suffragists, however, have decided the question for themselves and the Huberwalds announced Wednesday the meeting for Saturday night had been cancelled.

"We are working diligently," said Miss Huberwald. "Hundreds of women workers throughout Louisiana are circulating petitions for women's signature. These petitions are addressed to Governor Pleasant requesting him to call upon the voters of the state to vote for the adoption of the amendment to the state Constitution at the general election in November. A great many signatures have been obtained. I do not know how many, as the petitions still are being circulated."

Both the Woman Suffrage Party, of which Mrs. W. S. Holmes of Baton Rouge is state secretary, and the Louisiana Suffrage Association, of which Miss Kate Gordon is campaign manager, are working for the passage of the amendment. In this they are co-operating harmoniously, despite the fact that the latter organization favors suffrage by either federal or state constitutional amendment. Miss Gordon's organization is opposed to the granting of woman suffrage by federal action, holding state's rights should govern.

The amendment was adopted by the Legislature in the session last summer after a hard fight in both houses and is to be submitted to the voters for ratification at the general election November 5. Immediately after the Legislature acted, persons appeared to it opposing the Louisiana Association Opposed to Woman Suffrage. This organization is headed by Senator E. L. Simmons of Breauville and Senator J. R. Doane of Lake Charles. They have been having conducted a bitter fight against the adoption of the amendment by the Legislature. Senator Simmons, secretary of the opposition, said:

"These two senators assert the French-speaking women of the Third District are opposed to woman suffrage. They have a hand in this. In a recent statement they declared that suffragists have received their proper punishment at the hands of the United States Senate."

Evidence that the Third District is not solid against woman suffrage, however, was given at the national meeting of the women of the district held in Kansas City August 18 at which Edward J. Gay, Judge Luther E. C. Johnson of Oregon, the three senatorial candidates, spoke. Miss Kate Gordon also spoke in behalf of woman suffrage.

A feature of the gathering was the number of men who were wearing large buttons bearing the words "Votes for Women."

PROVOST MARSHAL
STARTS SPEEDUP
CONTEST IN DRAFT

Each District Board in State
Will Keep Tab on
Others.

BY PAUL WOOTEN
Washington, Oct. 9.—To expedite the work of stirring up the men of the new military registration who are available immediately for full military service, the provost marshal general has started a speed-up contest. Two local boards in Oklahoma and one in Iowa are the first to report that they have completed the classification of all the men between the ages of 18 and 20 and 35 and 36, and that they have completed the physical examination of the Class I men of those ages. There are seventy-eight local boards in Louisiana and in Mississippi, one of which has begun to score on one of the charts being kept up in the offices of the provost marshal general here.

There have been sent to each state copies of a progress chart, containing the names of every local board in that state, with space to indicate the percentage of classification and of physical examination of Class I men.

Each state headquarters keeps one of these charts, and as information as to progress is reported daily from the various local boards in the state, entry is made accordingly on the master chart and the information for all the boards in that state is kept up to date. Each local board will fill in its chart each day, and the provost marshal general in the general area within the state.

In addition, each state headquarters has been supplied with a chart, which will be filled in from time to time, to show where each state is, and where it stands in reference to all other states.

Lieutenant Colonel J. M. Coe, of New Orleans, who is attached to the office of the provost marshal general in this city, has been recommended for a commission as major. Captain Coe entered the service at the outbreak of the war. He received an appointment to the first officers' training camp at Fort Loran H. Root, Arkansas. He was graduated from that school with the rank of second lieutenant. He was assistant to the chief of staff at Camp Pike and completed the adjutant's course at Camp Jackson, Columbia, S. C. For services rendered in these positions, he was advanced to the rank of captain.

COASTWISE INSURANCE
From the number of inquiries received by the Coastwise Insurance Co. leaves there is not a general understanding as to the inclusion of war risks in the insurance by the Railroad Association, to cover the movement of particularly in the case of shipmen, diverted to these lines by the Railroad Association for the relief of the rail lines over which it may have been routed by the shipper.

The rates of the coastwise lines under federal control will include war risks, and the tariffs will be provided. The lines are under the jurisdiction of H. R. Walker, New York, and comprise the Old Dominion Line, Company, Clyde Line, Ocean S. S. Company, Merchants and Miners Transportation Company, Southern S. S. Company, Mallory Line and the Morgan Line.

PERSONAL
Mr. and Mrs. Edward J. Gay, of Paducah, who spent several days today in Washington, left this afternoon for the South. Mr. Gay is a member of the Senate of Indiana, and is a member of the Senate of Indiana.

BOCHE PLOT CAUSED
SPREAD, ACCUSATION
"Suspicion, because of the violence and spontaneity of the outbreak of influenza in the widely distributed localities where thousands of American soldiers are being trained for the extreme struggle against imperialism, that the infectious malady is due to diabolical origin. It is the sense of the military authorities that every effort of power shall be employed to assist the authorities in combating the spread of the infection."

Therefore, be it resolved, That the military authorities, by their individual inconveniences, declare themselves to be in hearty accord with the authoritative edict to close all places of amusement until the danger of the spread of the infection shall have been eliminated."

These paragraphs are taken from a resolution adopted Wednesday by managers of theaters in New Orleans at a meeting at the Palace Theater. The managers met primarily to discuss the proposition of employees during the period of influenza brought about by the order of Dr. W. H. Robin, city health officer, that all theaters close until further orders, because of the influenza epidemic. The majority of managers at the meeting favored the payment of half salaries to all employees during the period of influenza, although it was admitted that manager much be governed by conditions in each individual case.

INFLUENZA CROWDS
OUT CHRONIC CASES

Charity Hospital Pressed to
Make Room for New
Patients.

Seventeen wards in the Charity Hospital are being used for influenza victims, and Dr. Jerome Landry, house surgeon, said Wednesday afternoon arrangements are being made to accommodate several hundred more patients. As victims of the malady were admitted Monday up to 4:30 p. m. This is a record for one day.

"Patients under treatment for operations, and other cases of a chronic nature, are being sent to their homes to make room for persons suffering from influenza," Dr. Landry said. "We have over 200 patients in the hospital."

The entire second and third floors of the main building have been turned over to influenza victims and are under quarantine. The second floor of the building is under quarantine, and the entire floor of the negro women's department, also are being used. Several wards in the DeLoe Memorial hospital are in use.

Dr. Tipinias, superintendent of the Toussaint Hospital, said Wednesday: "We have no contagious wards, but we are preparing to do so as an isolation ward that will care for influenza victims."

At the Hotel Dixie and the Presbyterian Hospital it was said they would not be able to care for any influenza cases. Both places say their wards are crowded, and they have no isolation ward.

Superintendent of Police Mooney said Wednesday his department will see that all the rules of the health authorities are carried out.

INFLUENZA STOPS
SIGHTSEEING PLAN

Efforts of Miss Nell Davis, 17-year-old girl of Dawson, Texas, to see New Orleans are being reversed.

Miss Davis came to New Orleans Monday morning to see her brother-in-law, Dr. J. B. Davis, who is recovering from influenza. While out motoring Tuesday afternoon their automobile suffered an mishap, and Miss Davis went to a garage he was at. She was there for some time, and then she was taken to the hospital. She is now recovering from influenza.

Miss Davis came to New Orleans Monday morning to see her brother-in-law, Dr. J. B. Davis, who is recovering from influenza. While out motoring Tuesday afternoon their automobile suffered an mishap, and Miss Davis went to a garage he was at. She was there for some time, and then she was taken to the hospital. She is now recovering from influenza.

NO BAN ON KISSING,
SAYS DR. DOWLING
"Kiss her well, if you know well she is loved by the family doctor. Come Dowling Thursday to a query as to whether kissing to come under the same ban as other forms of public meetings because of Spanish influenza."

"As for kissing through embossed glass, or through a barrier, it is quite all right to say the least. It is to fight the flu in the most sensible way."

"If we ruled that kisses should use gauze masks, every man in New Orleans would be carrying a full supply of the material in his pocket."

Mother and Children Ill
Among the influenza patients admitted to the Charity Hospital Wednesday were Mrs. Corinne Breland, 28 years, 311 Carondelet street, and her three young children.
