Germany should a resumption of hostilities be threatened.
Other obvious requirements would be, it is thought, surrender by Austria to the Italians of fortresses in the Alps that guard the Austrian border and the road to Vienna, probable evacuation of the whole east coast of the Adriatic and the occupation of such bases as would huddle up Austrian naval power completely.
To safeguard Rumania and enforce peace conditions in Russia it was said the road to the Black Sea must be cleared, which would require surrender by the Turks of the fortresses of the Dardanelles. Surrender also of Russian battleships and destroyers in the Black Sea, seized by the Germans, would be demanded, it was thought, and possibly the surrender of Turkish war craft as well.

EPIDEMIC ROUTS CONVENTION OF 15 HOTEL MEN

Fifteen hotel men from various parts of the state have readjusted their influenza masks, packed their grips and are now speeding homeward. The Northern California Hotel Men's convention is off. "The fluënz Espagnol" did it!
The last attempt of the fifteen delegates who braved the epidemic and came here for the convention to transact business yesterday, at a luncheon at the Key Route Inn. These fifteen, the only ones of 500 expected delegates, were unable to transact anything, and the convention was finally called off. No plans for calling the convention after the epidemic is over have been made.

CAMP FREMONT BOY CAN COME HERE AGAIN

Scouters from Camp Fremont may have been misled, it was learned today, when announcement was made publicly that the quarantine had been lifted, influenza having almost entirely disappeared at the camp.
Camp Fremont soldiers, who the quarantine was placed on them, were advised the present guests of the California Institute. The quarantine suspension at Fremont was understood, with a view to all soldiers in the vicinity of the institution.

"There's a Reason"

"The President would deem himself lacking in candor did he not point out in the frankest possible terms the reason why extraordinary safeguards must be demanded."
**CHANGE IN GOVERNMENT
DEEMED NOT PERMANENT.**
"Significant and important as the constitutional changes seem to be which are spoken of by the German foreign secretary in his note of the 20th of October, it does not appear that the principle of a government responsible to the German people has yet been fully worked out or that any guarantees either exist or are in contemplation that the alterations of principle and of practice now partially agreed upon will be permanent. Moreover, it does not appear that the heart of the present difficulty has been reached. It may be that future wars have been brought under the control of the German people, but the present war has not been; and it is with the present war that we are dealing. It is evident that the German people have no means of commanding the acquiescence of the military authorities of the empire in the popular will; that the power of the King of Prussia to control the policy of the empire is unimpaired; that the determining initiative still remains with those who have hitherto been the masters of Germany. Feeling that the whole peace of the world depends now on plain speaking and straightforward action, the President deems it his duty to say, without any attempt to soften what may seem harsh words, that the nations of the world do not and cannot trust the word of those who have hitherto been the masters of German policy, and to point out once more that in concluding peace and attempting to undo the infinite injuries and injustices of this war the government of the United States cannot deal with any but veritable representatives of the German people who have been assured of a genuine constitutional standing as the real rulers of Germany. If it must deal with the military masters, and the monarchical autocrats of Germany now, or if it is likely to have to deal with them later in regard to the international obligations of the German empire, it must demand, not peace negotiations, but surrender. Nothing can be gained by leaving this essential thing unsaid.
"Accept, sir, the renewed assurances of my high consideration."
(Signed) ROBERT LANSING.

BEARDS BLUSH UNSEEN UNDER 'FLU' MASKS

Oakland's barbers are idly making out of their windows at fleeting processions of white-swathed faces, and morosely but unanimously muttering "Damn the Kaiser."
But the "flu masks" have put the barber business all to the bad! A man doesn't have to shave if his chin-coverage is concealed under a lot of gauze that saves him two bits. And besides, a stubble on his face helps it keeps the mask from slipping around on his visage; in fact, it makes it a sort of non-skid shoe.
Business in shaves has fallen off terribly in the last two days, according to local barbers. Men with masks on won't take them off and go to the trouble of putting them on again just for the sake of a shave that no one can see anyway, and the result is that the knights of the strip have much ado to stay open.

TO DARKEN HAIR APPLY SAGE TEA

Look Young! Bring Back Its Natural Color, Gloss and Attractiveness.

Common garden sage brewed into a heavy tea with sulphur added, will turn gray, streaked and faded hair beautifully dark and luxuriant. Just a few applications will prove a revelation if your hair is fading, streaked or gray. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get a bottle of Wyeth's Sage and Sulphur Compound at any drug store all ready for use. This is the old-time recipe improved by the addition of other ingredients.
While wispy, gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared, and, after another application or two, your hair becomes beautifully dark, glossy, soft and luxuriant.
This preparation is a delightful toilet requisite and is not intended for the cure, mitigation or prevention of disease.—Advertisement.
