Buy Liberty bonds of course, but the way is to buy them cheerfully, gladly, enthusiastically.

nent peace. Germany and her allies must understand that nothing short of complete victory will be satisfactory.

Representative Montague, Virginia, Dem.—The president takes the only position we can take.

Representative Stephens, Nebraska, Dem.—I would have the peace made in Berlin after the German military forces have been completely beaten and scattered or surrendered as prisoners. Then it would be possible to write an international constitution for a league of nations.

Representative Chandler, New York, Rep.—I favor a league of nations where combined forces and prestige will tend to secure permanent peace in the world.

RAIL EFFICIENCY HIGHER

BY LEASED WIRE TO THE JOURNAL

Washington—Figures designed to show that government control of railroads is increasing the capacity of the lines and reducing cost of operation were issued by the operating statistics section of the railroad administration. Both average train and carload also show a substantial increase. The statement shows an increase of 1,897,376,211, or 5.6 per cent in the number of revenue ton miles hauled, a decrease of 273,248,170, or 8.9 per cent in the number of non-revenue ton miles hauled concurrently with a decrease of 661,139, or 1.2 per cent in the number of train miles, a decrease of 71,118,495, or 5.3 per cent, in the number of loaded freight car miles and a decrease of 428,152, or 0.7 per cent, in the number of freight locomotive miles, the comparisons being as between July, 1918, and July, 1917. The average trainload in July, 1918, was 723 tons, compared with 684 tons in the same month in 1917, and the average carload was 30.1 tons in July, 1918, as compared with 27.3 in July, 1917.

Differences between the short line roads and the railroad administration over the terms of the railroad contract were rapidly being settled. The several hundred short lines subject to government control are expected to sign the contract within a few days.

Some of the most important points of disagreement were adjusted at a conference between Director General McAdoo and Bird M. Robinson, president of the American Short Line association, and meetings at which minor differences are to be ironed out have been arranged for the short line men with other officials of the administration.

TO ANNOUNCE U. S. MISSION TO RUSSIA.

BY LEASED WIRE TO THE JOURNAL

Washington—In authoritative circles an early announcement is expected of the American economic and commercial mission to Russia.

Late reports indicate that while the Bolshevik terror is still running rampant in some sections, Siberia and the Murman-Archangel regions have been sufficiently organized to facilitate the distribution of needed supplies. The railroads are available for transporting supplies into the interior, and local Russian governments are ready to assist in the work of distribution.

The solution of the Czecho-Slovak problem has been realized in much shorter time than had been believed possible. At the outset the Czechs appeared determined to leave Russia. Under French leadership, their new purpose is to annihilate the Bolsheviki and to assist in setting up a new Russian front against the central powers. Excepting along the Volga front, where the Reds have organized a formidable military force, the Czechs are now virtually undisturbed.

VOTE A MILLION TO FIGHT "FLU"

CONGRESS TAKES ACTION TO PREVENT FURTHER SPREAD OF DISEASE

Speaker Clark and Democratic Leader Kitchin Among Victims—Many Cases Reported Throughout the Country.

BY LEASED WIRE TO THE JOURNAL

Washington—Congress hurriedly appropriated $1,000,000 to the medical branches of the war and navy departments with which to fight Spanish influenza.

Urging immediate passage, Representative Gillett informed the house that both Speaker Champ Clark and Democratic House Leader Kitchin have fallen victims to it.

When the appropriation was called up in the senate, Senator Penrose, Pennsylvania, minority leader of the senate finance committee, declared that the measure had not been before the committee and asked whether any executive department of the government had requested it.

Senator Martin, Virginia, majority leader, said he did not know, but urged immediate passage, as the situation, he said, is rapidly becoming more serious in the New England states and in camps and cantonments.

"The senate finance committee is meeting all day and every day," said Senator Penrose, "trying to find some way in which to take $8,000,000,000 from the taxpayers of the country. If we collect this sum in taxes, I am loath to say it, but it will result in industrial disaster. The time has come to put a stop to this business of appropriating $1,000,000 one day, $50,000,000 the next, and more the next. The time is at hand when we must save $1,000,000,000 instead of spending it."

DISCOVER "FLU" IN MINNESOTA U., POSTPONE OPENING.

St. Paul—Fifty-one cases of Spanish influenza, discovered on the campus of the University of Minnesota, caused President M. L. Burton to postpone opening of classes until Oct. 9. The school was to have opened next Tuesday.

3,000 More Cases Near Boston.

Boston—Reports from forty-six cities and towns in this state, outside of Boston, showed 3,132 new cases of influenza and 105 deaths during the twenty-four hours ended at noon Saturday.

Measures to prevent further spread of the epidemic were in force everywhere through the state. Public gatherings of all kinds have been barred in virtually every town where the disease has developed. Gauze masks for protection of physicians were distributed in large numbers by the Red Cross.

New York Has 12 More Deaths.

New York—Spanish influenza cases here were increased by 852 during twenty-four hours. The health department reported twelve deaths.

Fond du Lac Family Stricken.

BY SPECIAL CORRESPONDENT OF THE JOURNAL

Fond du Lac, Wis.—Spanish influenza, developing into pneumonia, has laid a heavy hand on the family of William Peterson, this city. The mother died and the father, two sons and two daughters are battling for their lives. The father and son have been isolated.

Earl Willis, Green Lake, member of the Tank corps, is dead of Spanish influenza at Camp Colt, Gettysburg, Va. He was the son of George Willis, Green Lake.

NON-ESSENTIALS OF BOUDOIR AND KITCHEN BANNED

BY LEASED WIRE TO THE JOURNAL

Washington—Applying its program of elimination to conserve essential materials, the war industries board issued a schedule for the manufacture of electric heating appliances, which calls for the discontinuance of the manufacture of many articles such as carburator heaters, hand wheelers, intake heaters, manifold heaters, foot warmers, egg boilers, fudge warmers, waffle irons and other "frills."

Percolators, chafing dishes and a long list of appliances considered more or less essential, were restricted in the number of styles and sizes that may be manufactured, while similar curtailments were applied to industrial electric appliances and restaurant equipment.

Don't talk about sacrifice in buying Liberty bonds. Think of the boys "over there."

PLENTY OF COFFEE FOR FIGHTING YANKS

BY LEASED WIRE TO THE JOURNAL

Washington—The fighting Yankees in France may be denied alcoholic beverages, but they are getting their coffee with great regularity. A formal announcement by the war department states that the quartermaster corps has found it necessary to multiply by twelve its normal output of soluble coffee in this country to meet the demands of the overseas forces. New factories and machinery costing more than $1,000,000 have been provided.

TO FINE PERSONS WHO "BEAT THEIR WAY" ON STREET CARS.

New York—Passengers caught "beating their way" on Berlin street cars will be subjected to a fine of one mark, the Berlin Vorwaerts reports. The fine will be imposed by the trolley inspector not on the word of the conductorette, but following a sort of plebiscite among the other passengers.

The order was necessary, the street car company's counsel said, because the company suffered a daily loss of 10,000 marks through non-payment of fares.

"The worst offenders," he said, "are those of the better classes, especially women who consider it a sport to 'save' carfare by not paying it."

NOMINATE SUCCESSOR TO THE LATE SENATOR GALLINGER.

Concord, N. H.—George H. Moses, Concord, was nominated for United States senator to succeed the late Jacob H. Gallinger at the Republican senatorial convention here.

LEMON JUICE TAKES OFF TAN

Girls! Make bleaching lotion if skin is sunburned, tanned or freckled

Squeeze the juice of two lemons into a bottle containing three ounces of Orchard White, shake well, and you have a quarter pint of the best freckle, sunburn and tan lotion, and complexion beautifier, at very, very small cost.

Your grocer has the lemons and any drug store or toilet counter will supply three ounces of Orchard White for a few cents. Massage this sweetly fragrant lotion into the face, neck, arms and hands each day and see how freckles, sunburn, windburn and tan disappear and how clear, soft and white the skin becomes. Yes! It is harmless.—Advertisement.

Puritan

The Phonograph with the Clear, Clean Cut Tone

Represents the Supreme

PROGRESS

Skin Without Wrinkles Now Easy to Have

There's no excuse for any woman having wrinkles now. It has been found that a simple mixture of saxolite and witch hazel has a remarkable action upon the deepest wrinkles, no matter what their nature, whether caused by worry, habitual frowning, a debilitated condition or the ravages of Father Time. This harmless remedy, which anyone can easily make and use at home, acts both as an astringent and a tonic. The combined effect of tightening the skin and heightening its vitality is to immediately affect every line and wrinkle, keeping the cuticle smooth and firm as in youth.

The proportions are one ounce saxolite (powdered) to one-half pint witch hazel, ingredients which are found in every drug store. The solution should be used as a wash lotion. It is equally effective in dispelling of flabbiness of cheek and neck, as well as sagging below the eyes.—Advertisement.
