Meeting convenes at 8:30 p. m.
Scientific Program at 8:45 p. m.

Wm. Engelbach, Pres. Albert F. Koetter, Secy.

Saturday, April 12, 1919

The Results Obtained in the Treatment of
Neuro-syphilis by Intraspinial Injections.....
.....Dr. John A. Fordyce, New York

Discussion by Dr. Sidney I. Schwab.

Bell: Lindell 815 Kinloch: Central 6837

Dr. John A. Fordyce is Professor of Dermatology and Syphilology at Columbia University, New York. He was one of the first to establish the present intensive treatment of syphilis and the pioneer in advocating the early intensive treatment of that disease.

For the last few years Dr. Fordyce has written extensively from his vast experience upon the treatment of Neuro-syphilis by the intraspinal method, and has demonstrated upon numerous occasions his markedly successful method.

Members Discharged From Service
