**VISITING NURSES
WORKING OVERTIME**

The city's visiting nurses are stress-
ing instruction in the care of sick peo-
ple as much if not more than doing
actual nursing, said Elizabeth Holt,
superintendent of nurses Friday.

"Our nurses are so busy that they
are concentrating, through sheer ne-
cessity, on giving instructions to mem-
bers of families and allowing them
to do the nursing," said she.

The city now has only 15 visiting
nurses on the combined staff and 3 are
ill with influenza. Two more women
are to assume duty by November 1.
The staff includes, also, one assistant
or relief nurse. Miss Holt stated
that the experience with non-trained
women serving as nurses' aides has
been very unsatisfactory, and trained
nurses are needed badly. She added
that non-trained women may be ef-
fective in hospital service where under
constant supervision, but that their
work is unsatisfactory in public health
administration.

The nurses on duty are averaging
15 calls a day and now they are obliged
to stay on duty as late as 6 or 7
o'clock in the evening. "We simply
can't give nursing care to all so all
we can do is to have the nurses in-
struct other members of the families
and show them how to give the proper
care," said Miss Holt.

Class work at Barney Community
House has been suspended during the
general quarantine.

**SHIP BUILDING PLAN
WILL BE REVISED**

PHILADELPHIA, Pa., Oct. 25.—
Revision of the entire shipbuilding
program of the United States is in
prospect in the immediate future, ac-
cording to Charles Piez, vice-president
and general manager of the Emer-
gency Fleet Corporation.

"This revision will affect not only

the wooden ships," Mr. Piez said to-
day, "but the steel and concrete ves-
sels as well. It is brought about
partly because of the enormous ex-
pense which shipbuilding has placed
on the nation and partly because the
original program has been found not
to be adjusted to the needs of the
war."

**Instead
of Cream**

Every Day Milk
imparts to coffee or
cocoa a richness,
superior flavor and
attractiveness of ap-
pearance that will
surprise you if you
never have used it.

Many prefer Every Day Milk, just as it comes from the can, to
cream—not only for coffee and cocoa, but also for cereals, fruits
and puddings; although it is far less expensive than cream.

Every Day Milk is restored to the consistency of ordi-
nary milk by adding little more than an equal part of
water, and thus is used for cooking, baking, baby
feeding and every purpose requiring good fresh milk.

When you try it, you will find Every Day Milk ideal for your use,
because it is pure, clean, economical and of delicious, creamy flavor.

You can buy Every Day Milk from your grocer any
hour of the day. It is always good and always ready.
