...ment of health and issued an order closing ...ers, it is said.

The board adopted rules promulgated recently by the United States public health service for Indiana with reference to the sterilization of all knives, forks, spoons, cups, glasses and eating utensils in soda fountains, cafes, restaurants, hotels and the like.

If adopted also the rules with reference to the travel of persons infected with venereal disease. Such persons must communicate with their local health officers before they may travel and must learn how to take the proper precautionary measures. The adoption of the rules by the board makes possible prosecution of violators.

No Use.

[San Francisco Chronicle]

"They don't talk any more about antiseptic kisses."

"Certainly not; where, then, would the germs of affection be?"

WHY WORRY ABOUT SUGAR

Grape-Nuts is not only nearly solid nourishment but is rich in sugar developed from its own grains in the making.

This feature, absent in the usual prepared cereal, not only saves the use of sugar but provides food material especially adapted
