

Mounted British patrols have reached the outskirts of LeQuesnoy, a German base.

The British second army, which attacked in conjunction with the French on the Flanders front, is still advancing and has captured Moen and probably Seestert.

The advance was carried out in the face of heavy shelling, but there was little machine gun fire.

The enemy seems to have made another retirement.

Paris, Oct. 26.—On the Serre front, French troops captured Mortiers after violent fighting. Between the Oise and the Serre rivers, the French maintained contact with the enemy. Between Sissonne and Chateau Porcien, the French carried their lines forward.

CASES OF 'FLU' DOUBLE IN LAST 24 HOURS IN ALL PARTS OF DENVER

169 Are Reported, With 13 Dead, and Health Board
Blames Slackening Precautions—Week More
Needed for Epidemic to Run Course Here.

INFLUENZA SITUATION.

Number of cases reported in the last twenty-four hours—169.

Increase over new cases reported for previous twenty-four hours—92.

Deaths reported during last twenty-four hours—13.

Total number of cases reported to date—3,202.

Total number of deaths to date—256.

Reports show wisdom in keeping city and state "closed" for an indefinite period.

New cases of Spanish influenza reported to the bureau of health in the last twenty-four hours more than doubled the number of cases for the twenty-four-hour period immediately preceding. Saturday deaths reported number 13; new cases, 169. Friday's mortality record showed 18 deaths.

The increase in new cases very clearly indicates the wise precaution on the part of city and state health authorities in "calling off" all tentative dates for lifting the closing ban. The fluctuation in new cases and deaths is noticeable, not only in Denver, but in army

camp and civilian communities throughout the nation.

One day the contagion appears to be dying out; next day it is as bad as ever. Reports received by the bureau indicate that the present epidemic is the worst

It will be in Berlin, unless some un

later than the end of next week.

Meanwhile the internal political
situation within Germany constantly
grows more critical. The demand for
the immediate abdication of the kaiser,
fathored by the extreme Socialists, is
being voiced from every quarter of the
empire.

So far there has been no notice taken
of this "lese majeste" by the authori

that they will have to take steps to
end this agitation and that this action
will precipitate a conflict that will have
far-reaching effect upon the junkers,
and the military party are calling on
all "loyal Germans" to gather around
them and announce a "resistance to the
death" program.

The Socialists and the workers in
the industrial centers are planning a
general strike to compel the imme

terms possible.
