PREMIER GORES NGO yesterday announced that Israel is prepared to create a separate Israeli-Kurdish council.

But Israel’s main rival in the race to form a separate Kurdish council is the New IRA, which has been in conflict with Israel since 1973. The New IRA, based in the northern part of Israel, is said to be considering a separate Kurdish council as a way to gain recognition for its people.

However, the announcement comes as the New IRA intensifies its campaign against Israeli settlements in the West Bank.

**FEDERAL AUTHORITIES** will announce, on September 30, a new package of measures to reduce the cost of living. The package includes a number of measures for the elderly, including a new pension scheme and a reduction in the cost of medicines.

A U.S. agency in New York, the Federal Communications Commission, will propose that “significant developments” could be made in the new package. The agency has asked the public to comment on the proposal by September 30.

China has already invested $20 billion in the energy sector, and is seen as the world’s largest investor in the sector. It has already invested in a number of countries but has not yet declared complete energy independence.

BERNARD TARZIA, chief minister of the Roman Catholic Church in Northern Ireland, was secretly released from jail yesterday.

After serving four years of a six-month jail sentence for being a member of the Catholic Church in Northern Ireland, and the young MP immediately went into hiding somewhere in Northern Ireland.

Tarzia, who was released early for good behavior, is due to address a meeting today in Ireland and will take the seat in the House of Commons Thursday.

**ANOTHER SOVIET SPACECRAFT**, Vostok 6, is being tested to

Meet the mission, according to the official news agency TASS.

The spaceflight program of the U.S. is expected to be a major test of the new spacecraft, which has been designed to carry a single crew to the Moon.

The spacecraft is capable of carrying three crew members to the Moon, and is expected to be launched by October this year. The spacecraft is also expected to carry a number of scientific experiments to the Moon.

EXTRAORDINARY ORDERS for black revolutionaries Azurdia and Durin were signed yesterday by New York Governor Nelson Rockfeller.

Davis, who has been involved in the black revolutionaries in California, was released from New York City prison yesterday.

In November and that subsequent missions will be held to determine whether Davis will be released to the West Coast.
